

## Tested & Proven:

- [Electric Power Research Institute \(EPRI\)](#)
- Alabama Department of Transportation
- Criterium-Sollie Engineering
- Touchstone Labs
- California Prop 65 Compliant

## Capability Statement

[www.ovantellc.com](http://www.ovantellc.com)

**Ovante** is leading the way in solving problems such as rust and corrosion. Our leadership is built on innovation, networking, and our concern for the environment. We have the capability to support any size project from the design phase to asset retirement.

## Our Competencies:

- **Proven Corrosion Mitigation Products**  
With our **Storm Greeter** coating as the basis for our product lines, we provide flexible, adaptive, and robust solutions to reduce labor, time, and maintenance and inspection costs over the life of the asset while increasing the asset value from design to retirement.
- **Proven Culture of Innovation**  
When Southern Company, Inc. came to us with a specific product need, we met that need within a matter of days. Our corporate size allows us to move quickly and efficiently, even when it involves the development of new technologies. We currently serve the utility, agriculture, oil & gas, transportation, defense, and floor covering industries.
- **Proven Leadership**  
From our environmentally safe coatings to our involvement in developing industry standards and guidelines through IEEE and NACE, Ovante is leading the world to better solutions and strategies for corrosion mitigation.

## Our Product Lines:

Coated Parts: From fasteners & couplings, to truck frames and rebar, we can do it – **in any color!**

# STORM GREETER™

Relax: it's covered!

*Ovante's UV, chemical, abrasion & time resistant coating is the basis for all our product lines.*

Molded Parts: Storm Greeter can be cured into a vast number of shapes, whatever the customer needs.

# DuraTop-50

Relax: it's covered!

*Our DuraTop pole caps prevent decay caused by fungus in poles, piers and fence posts. Our molded parts will last 50 years!*

## NAICS, PSC & FSC Codes:

- 237120 Corrosion protection, underground pipelines and oil storage tanks
- 541715 Research & Development – Physical, Engineering & Life Sciences
- 811198 Automotive rustproofing and undercoating shops
- 541690 Other Scientific & Technical Consulting Services
- 238190 Cathodic Protection, installation
- 325998 Rust preventive preparations, manufacturing
- 335932 Transmission pole and line hardware, manufacturing
- 332312 Transmission tower sections, fabricated
- 423610 Transmission Equipment, electrical merchant wholesalers
- 237130 Transmission and Distribution line construction
- 541380 Testing Laboratories (except medical, veterinary)
- 332312 Concrete reinforcing bar (rebar) assemblies, fabrication
- 336992 Military armored vehicle, tank, and tank component mfg.
- 336413 Aircraft assemblies, subassemblies, and parts mfg.
- 336419 Other Guided Missile & Space Vehicle Parts
- 238320 Rustproofing (except automotive)
- AZ13 - Other R&D: Advanced Development
- H156 - Quality Control: Construction & Building Materials
- Y--- - Constr. of Structures & Facilities (any construction where corrosion management should be addressed)
- 6120 - Transformers: Distribution & Power Stations
- 5660 - Fencing, Fences, Gates & Components
- 1945 - Pontoons and Floating Docks
- 1950 - Floating Dry Docks

## Company Overview:

- Ovante R&D is located in Auburn, AL
- President & CTO – Jon H. Brasher
- 7 coating & molding facilities across the USA
- 4 formulation facilities

Reduced Risk. Increased Value & Predictability. Peace of Mind.

Contact Ovante for your corrosion management and coating strategies.
